# INTRODUCTION

## History

Veterinary Technical Institute (VTI) is a private postsecondary school founded in Naples, Florida in 1995, and licensed by the Commission for Independent Education, Florida Department of Education, Lic. #1803.

## Purpose

VTI currently offers Small Animal Technician and Veterinary Receptionist career training diploma programs, Staff Training Programs for clinics, and Continuing Education courses for specialized training of Office Managers. VTI also provides staffing services for all veterinary practice positions. The school was created to satisfy a real need in the community for vocational education, the employment of capable individuals interested in developing a career in the veterinary field, and veterinary clinics wanting to hire or develop professionally trained staff. Thus, the school based the design and format of its programs on cooperative solutions to unemployment, the lack of skilled professionals in veterinary clinics and hospitals, the accelerated interest of people to work in the animal health care field, and the demand for unique vocational training. VTI strives to benefit the need for veterinary clinics to hire qualified staff and for people desiring to enter the veterinary field by obtaining career development and job placement assistance.

## Philosophy

Veterinary Technical Institute is dedicated to helping students achieve their goals and venture into an exciting and new career in the veterinary field. Our goal is for every student that graduates our diploma programs to have gained or received the following:

- Improved study skills.
- Entry-level skills needed for career training.
- The motivation for lifelong curiosity and learning.
- The quest to set technical standards in the workplace.
- A qualified academic background for a career in the veterinary field as a veterinary staff member.

## Licensure

Veterinary Technical Institute is licensed by the Commission for Independent Education, Florida Department of Education. Additional information regarding this institution may be obtained by contacting the Commission at: 325 W. Gaines St, Suite 1414, Tallahassee, FL 32399-0400, toll-free telephone number 888-224-6684.

## Ownership

The school is owned by Veterinary Technical Institute, Inc. (doing business as Veterinary Technical Institute), as a corporation formed under the laws of the State of Florida. The address of the school's governing body is the same as that for the school. The president and stockholder is Kim Fish.

## Administrative Board and Faculty

Full-time Administration:

Kim Fish - School Director and Director of Instruction, Director of Admissions and Student Services  
B.S. Animal Physiology, University of California, San Diego  
Courses Taught: Small Animal Technician (20-week session)  
Small Animal Technician (40-week session)  
Veterinary Receptionist

Any changes in administrators or instructors, if any, may be found attached to this catalog.

Complaints and appeals to disciplinary actions may be addressed directly to the school director for careful consideration, and will not be handled in a capricious or arbitrary manner.

## School Facilities

VTI occupies a space of 1,200 square feet at 5071 Mahogany Ridge Drive, Naples, Florida, 34119. The school maintains an administrative office and library, and contains the necessary equipment to admit students, deliver lectures, and provide student guidance through both teleconferencing and videoconferencing, which is sufficient to meet the needs of the school and its students, and is conducive to the distance learning format of program delivery. Communication with students is done via telephone, fax, computer, or mail. Current and relevant books and periodicals may be loaned or purchased from this facility to aid students and faculty in further research for personal interest and increased knowledge. A list of available resources can be requested from the school. Library resources and information services are available for students and faculty. All hands-on training is conducted at a veterinary clinic local to the student in our laboratory and externship programs.

# SCHOOL POLICIES

## Entrance Requirements

Each potential student for the *Small Animal Technician (20-week session)* program, *Small Animal Technician (40-week session)*, or *Veterinary Receptionist* programs must satisfy all of the following for entrance to the program:

- Provide a completed, signed, and returned Student Enrollment Agreement. Students under 18 years of age also require parent/guardian approval and consent.
- Have proof of a high school diploma or its equivalent, or pass an ability to benefit test (CPAT) with a scaled score of 118 or better.
- Be interviewed by the school's Admissions Representative.
- Obtain authorization for admission, by the Director of Admissions, after review of the above described criteria.
- Provide tuition payment in full, or the minimum initial payment and an accepted Retail Installment Contract.

## Admission Procedures

Applications for enrollment may be submitted any time during the year. The school operates on an open entry/open exit basis. The school catalog is available one week prior to classes beginning, and may be obtained, along with information and applications, by contacting the school at:

Veterinary Technical Institute  
5071 Mahogany Ridge Drive, Naples, FL 34119  
(239) 592-1219

The procedures for admission are given as follows:

- Complete, sign, and return the Student Enrollment Agreement, Student Information Statement, and Student Checklist.
- Satisfy the program entrance requirements.
- Complete, sign, and return a credit application, if credit is needed. Follow the payment instructions as described in the Student Enrollment Agreement.

## Policy of Nondiscrimination

Veterinary Technical Institute does not deny admissions or discriminate against students enrolled at the institution on the basis of race, color, creed, sex, age, disability, marital status, religion, or national origin to the extent of the law.

## Student Responsibilities

VTI has specific rules pertaining to student conduct, program attendance, academics, and financial obligations.

**Student Conduct:** The school reserves the right to dismiss any student for the following actions at a laboratory, externship, or other school affiliated event:

- Any conduct found by the school to be detrimental to the student, other students, the community, or the school.
- Failure to comply with the rules established by the laboratory/externship site.
- The use, sale, or distribution of alcoholic beverages or illegal drugs of any kind.
- Dress that is not considered typical for the occupation.
- Any indecent or disruptive behavior or action, including assault, harassment, or physical abuse.
- Vandalism, destruction or unauthorized entry of property.
- Cheating in any form.
- Fraudulent and/or unauthorized use of the school's name.
- Falsification of any school document.

**Attendance Policy:** Students are expected to:

- Attend all teleconferencing discussion sessions assigned.
- Complete the laboratory and externship as assigned.

Due to the concentrated nature of the instruction in the school's programs, no unexcused absences are allowed, and all absences must be made up within a thirty (30) day period, not to exceed a 20% absence limit. Absences are excused for and limited to a valid reason verbally authorized or substantiated in writing and at the discretion of the School Director.

**Academic Policy:** Students are expected to:

- Achieve a minimum of a "C" or better for each section completed, with a cumulative grade point average of 2.0 or better (see *Grading System*, page 7). Section examinations may be retaken as needed to maintain this level of academic achievement, and must be done within thirty (30) days of receiving the unsatisfactory grade.
- Maintain a "P" or minimum of 80% completion of the teleconferencing, lab and externship work assigned on the program calendar. A grade of "NP" or "I" must be made up within thirty (30) days of receiving the unsatisfactory grade.
- Complete their program of study within the expected timeframe, as a maximum completion time is given. In cases where a student is having difficulty completing the program, a student advisor may be able to help with time management problems or tutoring. Extension requests may be filed if additional time is needed for program completion.

**Rules of Financial Obligations:** The school reserves the right to dismiss any student for non-payment of monies due. Costs of collection will be added to the student's account, and all outstanding monies, including a non-refundable \$50.00 re-enrollment fee, must be paid before the student may be reinstated to the program.

## **Probation and Termination**

The school reserves the right to assign probationary status and/or dismiss any student for conduct, attendance, academic progress, or financial repayment inconsistent with the requirements of the school. If probationary status is given, failure to regain satisfactory status within thirty (30) days will result in termination. Specifically, a student may be dismissed, at the discretion of the school director, prior to completion of the program, for reasons to include, but not limited to, the following:

- Insufficient academic progress (see *Academic Policy*, page 4 of the catalog).
- Failure to comply with the rules outlined in the catalog under Student Responsibilities.
- Nonpayment of tuition under terms agreed upon with the school.
- Failure to complete the program within the extended amount of time if an Extension Request has been granted by the school.

## **Extension Requests**

Students wishing to extend their program completion time must file an Extension Request Form (a non-refundable \$50.00 extension fee applies), which grants up to 90 days for program completion. Interruptions in the program will only be granted in cases where the enrolled student may not be able to complete their training with benefit to themselves, such as due to unsatisfactory progress or grades. Financial obligations must continue to be fulfilled as outstanding balances are not eligible for program extensions.

## **Refund and Cancellation Policy**

The Student Enrollment Agreement and the school's catalog constitute a binding contract between the student and the school. Should a student's enrollment be terminated or cancelled for any reason, all refunds will be made according to the following refund schedule:

- a) Cancellation can be made in person, by electronic mail, by Certified mail or by termination.
- b) All monies will be refunded if the school does not accept the applicant or if the student cancels within three (3) business days after signing the enrollment agreement and making initial payment.
- c) Cancellation after the third (3rd) business day, but before the first class, will result in a refund of all monies paid, with the exception of the non-refundable application, registration, and materials fees.
- d) Cancellation after attendance has begun, but prior to 40% completion of the program, will result in a pro rata refund computed on the number of hours completed to the total number of program hours.
- e) Cancellation after completion of 40% of the program will result in no refund.
- f) The termination date for refund computation purposes is the last date of actual attendance by the student unless earlier written notice is received.
- g) All refunds will be made within 30 days after termination or receipt of cancellation notice.
- h) A student may re-enter the program of study within ninety (90) days of cancellation, if authorized by the School Director. A non-refundable \$50.00 re-enrollment fee will apply.

The following fees and items are non-refundable:

- Application Fee
- Re-Enrollment Fee
- Registration Fee
- Extension Request Fee
- Program Materials Fee
- Any interest collected on student loans

## Student Records

Student records are permanently retained by the school, and are available to students upon written request. Individuals and potential employers may receive a copy of a student's record only after the student has authorized the request in writing. For those students who were dismissed or denied entry, records will remain on file for at least one year.

## Grading System

The school uses a traditional A through F grading system to measure the student's ability to meet occupational standards. Upon completion of each unit the student is given a letter grade based upon the section examinations, while teleconferencing, laboratories, and externships are conducted on a pass / no pass system. The final grade is determined by averaging all grades earned. All missed work is counted as zero. Grades are defined as follows:

**Repeated Material:** The grade is raised by replacing the failing grade earned with the grade earned for the repeated section.

**Incomplete:** A grade of "I" is given when a section is not satisfactorily completed by the expected completion date. Continued failure to complete the section will result in a grade of "F".

**Pass / No Pass:** A grade of "P" or "NP" is given for teleconferencing, laboratories, and externships. An "NP" may be raised to a "P" after repeated effort leads to successful completion.

Score (%)	Grade	Quality	Grade Pts.
90-100	A	Excellent	4.0
80-89	B	Above Average	3.0
70-79	C	Average	2.0
60-69	D	Below Average	1.0
<60	F	Failing	0
	W	Withdrawal	0
	I	Incomplete	N/A
80 or above	P	Successful	Pass
< 80	NP	Unsuccessful	No Pass

Veterinary Technical Institute is open year-round for enrollment and instruction, excluding the following national holidays:

- New Year's Day: 1/1/13
- Memorial Day: 5/27/13
- Independence Day: 7/4/13
- Labor Day: 9/2/13
- Thanksgiving Day: 11/21/13
- Christmas Day: 12/25/13

Hours of operation: Monday-Friday, 9:00 a.m. - 8:00 p.m. *Class times vary; day and evening classes available*

## Student Benefits

**Academic Assistance:** The staff at Veterinary Technical Institute is dedicated to helping each student achieve academic success. The school provides information regarding enrollment, tuition, program requirements, examination grading, school policies, career placement, and any other academic emphasis. The instructor may also offer tips on studying, time management, and career outlooks. VTI wants to see all of its students succeed.

**Clinic Placement Assistance:** The laboratory and externship experience is an integral part of the school's teaching philosophy. It supplements the textbook and accompanying instructional materials by placing the student in the heart of his chosen career. VTI assists in placing the student as a veterinary staff member in a clinic to provide this important hands-on practice. If clinic placement is limited in the student's given area, or if the veterinary clinic offering the laboratory/externship site no longer chooses to have the student participate, further placement will be attempted. The student's active attempt to search for clinic placement is a prerequisite for school placement assistance. It is the student's responsibility to seek placement, send resumes, prepare for interviews, and present a professional and confident self-image when following up on career employment leads. In return, the school will train the student in job placement techniques, including interview skills, cover letter and resume preparation, and salary negotiation. The school will also provide clinic leads as they arise and additional training if needed for further employment preparation. There is no additional charge for placement assistance, and there is no guarantee of externship placement or employment, directly or indirectly implied.

**Grievance Policy:** Students who feel a grievance is unresolved may refer their grievance to the following address: Commission for Independent Education, 325 W. Gaines St, Suite 1414, Tallahassee, FL 32399, 888-224-6684.

# PROGRAMS OF STUDY

## ***Small Animal Technician (20-week session) & Small Animal Technician (40-week session)***

### **Program Objectives and Credential Awarded**

Veterinary Technical Institute trains students for a career as a small animal technician through our *Small Animal Technician (20-week session)* and *Small Animal Technician (40-week session)* programs. These programs were developed to satisfy a real vocational need in the field and are designed to instruct and prepare students to be a competent member of the veterinary staff, assisting in maximizing the health care of small animals. Upon successful completion of either the *Small Animal Technician (20-week session)* or *Small Animal Technician (40-week session)* program, and upon meeting all course requirements and financial obligations, a diploma will be issued to the student. There are no regulatory, agency, certification, or licensure exams that students are required to take upon completion of the program.

### **Program Description**

These programs provide instruction and training in the care and handling of small animals (dogs and cats). Delivery of this program is through distance learning where the student learns at home through self-study while maintaining scheduled contact with the instructor through teleconferencing (real-time lecture over the telephone or computer). A clinic supervisor (a licensed veterinarian) will be scheduled to assist the student with the laboratory and externship portions of the program, with an established curriculum to follow. The programs are accessible to anyone, regardless of location, as the distance learning format, combining home study, teleconferencing, and hands-on training in an actual veterinary clinic setting, brings the school to the student. The content of these programs includes small animal physiology, medical and surgical nursing, anesthesiology, radiology, pharmacology, and clinical laboratory procedures. Basic skills will also be reinforced as appropriate for job preparation.

### **Methods of Instruction**

The school uses online learning to deliver accessible training to its students. The instructional materials are supplied to the student electronically, along with a program calendar listing the program start date, teleconferencing discussion dates and times, examination dates, lab weeks, the externship start date, and the expected program completion date. Thus, the school is brought to the student, rather than the student brought to the school. This may facilitate the student's learning process by allowing for study flexibility. The program works as a combination of online lectures and clinic experience through site lab and externship. Each portion of the program can be broken down as follows:

**Self-Study:** Student study of the provided program materials and lecture notes, and completion of the open-book final examination, requires about *260 hours*.

**Online Lectures:** Online lectures are scheduled in thirty minute units conducted four times weekly for students enrolled in the *Small Animal Technician (20-week session)* program, or twice weekly for students in the *Small Animal Technician (40-week session)* program, for a total of *40 hours*. Additional online instruction may be provided as necessary.

Student-instructor communication via teleconferencing is provided to:

- Motivate the student through interesting and informative discussions on the material.
- Encourage student participation in the learning and understanding process.
- Aid in the student's comprehension of the subjects.
- Benefit those students having difficulty completing the course by focusing on the student's individual needs.

**Laboratory:** The student receives concentrated instructor-guided clinical experience by an attending licensed veterinarian at a local veterinary clinic to complement the externship portion of the program. Six labs are scheduled for a total of *24 hours* of clinical instruction, which are designed to emphasize key topics discussed in lecture, help with examination preparation, and allow for visual demonstration and practice of applied skills. This laboratory site may provide for a professional reference and / or employment.

**Externship:** *200 hours* of externship experience is scheduled as part of the program to provide students with clinical experience at a local veterinary clinic for the opportunity to observe and practice applied technical skills. This portion of the program emphasizes theories and skills learned in the texts, supplemental instructional materials, and lectures, gives the student the opportunity to experience those theories and apply the physical skills taught and required of a small animal technician, familiarizes the student with the clinical setting, staff inter-relationships, and career employment, and possibly provides a professional recommendation and potential employer in the veterinarian at the externship site.

## Program Length

The program length and scheduling hours are the only difference between the *Small Animal Technician (20-week session)* and *Small Animal Technician (40-week session)* programs. The program time-frames are as follows:

- Max. completion time:
  - 20-week session: 20 weeks = 5 months
  - 40-week session: 40 weeks = 10 months
- Home Study:
  - a) Self-study: 260 hours
  - b) Online Lecture Time: 40 hours
  - c) Laboratory: 24 hours
- Externship: 200 hours
- Total clock hours: 524 hours

“Hours” referred to are “Clock Hours”, which is the unit of credit, defined as a minimum of 50 minutes of supervised or directed instruction, with appropriate breaks.

## Areas of Study

The *Small Animal Technician (20-week session)* and *Small Animal Technician (40-week session)* programs are broken down into the following chronological units of instruction:

**Unit 1 - Introduction to Small Animal Technology** - Provides an introduction to a career as a *small animal technician*. Includes duties and responsibilities of a small animal technician, and career opportunities. *Self-study: 3 hours; Teleconferencing: 30 mins.*

**Unit 2 - Handling and Restraint** - Topics covered include animal behavior, indications for restraint, capture and restraint, and restraining aids. Proper handling techniques are discussed. *Self-study: 8 hours; Teleconferencing: 1 hour, 30 minutes.*

**Unit 3 - Medical Records and the Examination** - Provides an introduction to the medical record, medical logs, and preventative care. Students are instructed on how to take a general history, obtain vital signs, and conduct a physical examination. *Self-study: 8 hours; Teleconferencing: 1 hour, 30 minutes; Lab: 4 hours.*

**Unit 4 - Nursing** - Discussion includes general care, administering medications (oral and injectables), specific ailments and conditions, and emergency animal care. *Self-study: 18 hours; Teleconferencing: 2 hours, 30 minutes; Lab: 4 hours.*

**Unit 5 - Nutrition** - Provides a complete overview of nutritional principles, dietary analysis and evaluation, nutritional requirements (for the different life stages, obesity, and specific diseases), assisted feeding, and alimentation calculations. *Self-study: 12 hours; Teleconferencing: 2 hours.*

**Unit 6 - Radiology** - Topics include radiographic safety, principles, positioning, and processing. *Self-study: 15 hours; Teleconferencing: 2 hours.*

**Unit 7 - Dentistry** - Discussion includes dental anatomy, equipment use, and prophylaxis. This section is intended to instruct the student in proper dental cleaning techniques. *Self-study: 12 hours; Teleconferencing: 2 hours; Lab: 4 hours.*

**Unit 8 - Anatomy and Physiology** - Provides an overview of canine and feline anatomy and physiology. *Self-study: 12 hours; Teleconferencing: 2 hours.*

**Unit 9 - Infectious Diseases** - An in-depth section covering vaccination and vaccine protocol, and description, transmission, host predispositions, signs and effects, diagnosis, treatment, and prevention of viral diseases, bacterial diseases, and fungal and yeast infections. *Self-study: 18 hours; Teleconferencing: 2 hours and 30 minutes.*

**Unit 10 - Parasitic Diseases** - A discussion of common internal and external parasites, including their transmission, host predispositions, signs and effects, diagnosis, treatment, and prevention. The topics covered include rickettsial parasites, protozoal parasites, helminths, bloodsucking ectoparasites, mites, and tissue-feeding ectoparasites. *Self-study: 18 hours; Teleconferencing: 2 hours and 30 minutes.*

**Unit 11 - Laboratory Techniques** - An in-depth overview of laboratory principles and equipment, hematology, microbiology, blood chemistry, urinalysis, immunology and serology, and diagnosing internal and external parasites. *Self-study: 26 hours; Teleconferencing: 4 hours; Lab: 4 hours.*

**Unit 12 - Tumors** - Topics include neoplastic development, progression, and classification, diagnosing and treating cancer, predispositions to neoplasms, paraneoplastic syndromes, non-neoplastic tumors, and neoplastic tumors. *Self-study: 20 hours; Teleconferencing: 3 hours.*

**Unit 13 - Pharmacology** - Includes pharmacy principles, antimicrobials, antiinflammatories, antiparasitics, and drug protocols. *Self-study: 26 hours; Teleconferencing: 4 hours; Lab: 4 hours.*

**Unit 14 - Systemic Problems and Diseases** - Provides a system-by-system review, to include the optic, nasal, otic, and integumentary systems, and the gastrointestinal, cardiovascular, respiratory, urogenital, and endocrine systems. Specific problems and diseases of each system are discussed. *Self-study: 26 hours; Teleconferencing: 4 hours, 30 minutes.*

**Unit 15 - Surgery and Anesthesia** - Provides information on instrumentation, aseptic technique, surgical preparation, anesthesia (anesthetic induction, maintenance, recovery, and anesthetic emergencies), hemostasis, lavage, and common surgical techniques and risks. The anesthetic machine is also described. *Self-study: 18 hours; Teleconferencing: 2 hour, 30 minutes; Lab: 4 hours.*

**Unit 16 - Final Review** - The final examination is inclusive of all information provided throughout the program. *Self-study: 20 hours; Teleconferencing: 3 hours.*

**SATEXT - Small Animal Technician Externship** - *Clinical Experience: 200 hours.*

## Instructional Materials

The following is a list of instructional materials used:

- ◆ *Veterinary Technical Institute Online Course*, VTI 2012, electronic.

## Completion Requirements

Both programs require the following for awarded completion:

- Successful completion of all section and final achievement exams (a grade of "C" or better), with a cumulative grade point average of 2.0 or better.
- Satisfactory completion ("P") of all teleconferencing, laboratory, and externship requirements.
- Satisfaction of all financial obligations at the time of program completion.

## Program Policies

The following are program policies:

- All attendance and academic policies apply to this program.
- Any examination scored below a 70% or "C" may be retaken after additional instructor conferencing on the subject.
- Students should schedule a laboratory/externship site by the 12th week of instruction for the *Small Animal Technician (20-week session)* program and the 24th week for the *Small Animal Technician (40-week session)* program. The school provides laboratory and externship placement assistance, but does not guarantee that a clinic site can be established. An extension request may be filed if a clinic site is not assigned by the expected date.
- Tuition will not be discounted in any manner, and credit will not be given for prior learning or experience.
- Transferability of credit is at the institution's discretion and it is the student's responsibility to confirm whether or not credits will be accepted by another institution of the student's choice.

## Tuition

Application Fee (non-refundable):	\$50.00
Registration Fee (non-refundable):	\$100.00
Program Materials (non-refundable):	\$350.00
Home Study Fee:	\$3,000.00
Externship Fee:	\$200.00
Total Program Cost:	\$3,700.00

<b>Payment Plans:</b>	<b>Plan 1</b>	<b>Plan 2</b>
Initial Payment	\$3,700.00	\$1,850.00
Tuition Financed	0.00	\$1,850.00
Finance Charge	0.00	\$46.48
Annual Percentage Rate	N/A	12%
Deferred Payment Price	N/A	\$1,896.48
No./Amt. Monthly Pymts.	N/A	4 @ \$474.12

## Registration Documents:

### *Appendix: School Forms*

Program Start Dates  
Enrollment Agreement  
Student Information Statement  
Installment Contract (get from school)  
Transcript Request Form  
Student Interview Questionnaire  
Student Checklist

**Financial Assistance Advisement:** For those who qualify, financial assistance is available. Students may apply for financial assistance offered directly through the school by submitting a completed and signed *Retail Installment Contract*. Federal aid does not apply.

# PROGRAMS OF STUDY

## *Veterinary Receptionist*

### Program Objectives and Credential Awarded

The objective of the *Veterinary Receptionist* program is to prepare students for entry-level placement as a receptionist in a veterinary clinic, or to provide supplemental training for persons previously or currently employed in this occupation. Upon successful completion of the program, and upon meeting all course requirements and financial obligations, a diploma will be issued to the student. There are no regulatory, agency, certification, or licensure exams that students are required to take upon completion of the program.

### Program Description

This program provides instruction and training in reception skills for application in the veterinary field. Program delivery is through distance learning by which the student learns at home through self-study while maintaining scheduled contact with the instructor through teleconferencing (real-time lecture over the telephone or computer). Clinical learning in the veterinary health care setting will provide application of the learning objectives in an environment comparable to the student's future area of employment. A licensed veterinarian will supervise the laboratory portion of the student's training. The content of this program will focus on communication skills, leadership skills, human relations, employability skills, veterinary health care organization, veterinary medical ethics, legal aspects, general technical skills, appointment organization, medical record control, and office productivity. Basic skills will also be reinforced as appropriate for job preparation.

### Methods of Instruction

The program works as a combination of self-study, teleconferencing, and laboratory:

**Self-Study:** Student study of the described areas and completion of the open-book examinations requires about *84 hours*. Four examinations are given which are each two hours in length.

**Online Lectures:** Online lectures with an interactive format are scheduled in twenty minute units for a total of *8 hours*. Additional instruction may be provided as necessary.

**Laboratory:** The student receives clinical experience at a local veterinary clinic to correlate with the other components of the program. One lab (*8 hours*) is scheduled to place the student in the reception area of the veterinary clinic so that he/she may observe and practice applied skills, when appropriate. The key topics outlined for the lab are studied by the student and discussed with the instructor prior to the clinical exposure, so that the student only needs a visual demonstration of the applied skills to accompany his studies.

### Program Length

Home Study:	Self-study and Testing	82 hours
	Online Lecture Time	10 hours
Laboratory		8 hours
Total Program Hours:		100 hours
Maximum Completion Time:		4 weeks

"Hours" referred to are "Clock Hours", which is the unit of credit, defined as a minimum of 50 minutes of supervised or directed instruction, with appropriate breaks.

### Areas of Study

The *Veterinary Receptionist* program is broken down into the following units of instruction:

#### **VFOI: Veterinary Front Office I: Veterinary Reception**

The Receptionist: *Self-study: 4 hrs; Teleconferencing: 30 min.*

Telephone Procedures: *Self-study: 4 hrs; Teleconferencing: 30 min.*

Appointments: *Self-study: 4 hrs; Teleconferencing: 30 min.*

Patient Records and Filing: *Self-study: 4 hrs; Teleconferencing: 30 min.*

Front Office Management: *Self-study: 8 hrs; Teleconferencing: 1 hour*

Office Machine Skills: *Self-study: 8 hrs; Teleconferencing: 1 hour*

Computer Skills: *Self-study: 8 hrs; Teleconferencing: 1 hour*

Testing: *1 hour*

**VFOII: Veterinary Front Office II: Animal Health Care Overview**

Anatomy and Physiology: *Self-study: 8 hrs; Teleconferencing: 1 hr.*

Nutrition: *Self-study: 8 hrs; Teleconferencing: 1 hr.*

Infectious, Parasitic, and Systemic Diseases: *Self-study: 8 hrs; Teleconferencing: 1 hr.*

Laboratory & Pharmacology: *Self-study: 8 hrs; Teleconferencing: 1 hr.*

Common Surgical Procedures: *Self-study: 8 hrs; Teleconferencing: 1 hr.*

*Testing: 1 hour*

**VRLAB - Veterinary Receptionist Laboratory - Clinical Experience: 8 hours.**

**Instructional Materials**

- ◆ *Veterinary Front Office I: Veterinary Reception*, VTI, 2006, electronic.
- ◆ *Veterinary Front Office II: Animal Health Care Overview*, VTI, 2006, electronic.
- ◆ *Veterinary Receptionist* workbook, VTI, 2006, electronic.
- ◆ *Veterinary Receptionist* supplements, VTI 2006, electronic.

**Completion Requirements**

The *Veterinary Receptionist* program requires the following for awarded completion:

- Successful completion of all section and final achievement examinations (a grade of "C" or better), with a cumulative grade point average of 2.0 or better.
- Satisfactory completion ("P") of all teleconferencing and laboratory requirements.
- Satisfaction of all financial obligations at the time of program completion.

**Program Policies**

The following are program policies:

- All attendance and academic policies apply to this program, and the program calendar is to be followed.
- Any examination scored below a 70% or "C" may be retaken after additional instructor conferencing on the subject.
- Students should review the school's *Laboratory, Externship, and Employment Preparation Packet* and schedule a laboratory site prior to the scheduled laboratory date. The school provides laboratory placement assistance, but does not guarantee that a clinic site can be established. An extension request may need to be filed in the event that a clinic site is not assigned by the date given on the program calendar.
- Tuition will not be discounted in any manner, and credit will not be given for prior learning or experience.
- Transferability of credit is at the institution's discretion and it is the student's responsibility to confirm whether or not credits will be accepted by another institution of the student's choice.
